

Proceedings  
of the KI-2001 Workshop W1

**“AI in Planning, Scheduling, Configuration and Design”**

15. Workshop “Planen, Scheduling, Konfigurieren und Entwerfen”  
PuK 2001

Edited by Jürgen Sauer

Wien, 18.9.2001

**KI-2001**

## Content

### Preface

<i>L. Ardissono, A. Felfernig, G. Friedrich, A. Goy, D. Jannach, R. Schäfer, M. Zanker (Universita Toriono, Universität Klagenfurt, DFKI Saarbrücken):</i>	
Web-based Commerce of Complex Products and Services with Multiple Suppliers	1
<i>Roman Englert, Amin B. Cremers (Universität Bonn):</i>	
Configuration of Applications for the 3rd Generation Mobile Communication	9
<i>Oliver Hoffmann, Markus Stumptner, Talik Chalabi (TU Wien, University of South Australia):</i>	
A perspective based approach to design	19
<i>Florian Kandler (Electronic Commerce Competence Center Wien):</i>	
Scheduling in a Virtual Enterprise in the Service Sector	32
<i>Christian Kühn (DaimlerChrysler AG):</i>	
Vergleich unterschiedlicher Konfigurationsmethoden im Hinblick auf die Nutzbarkeit von Wissens über das Zustandsverhalten der Konfigurationsobjekte	43
<i>Alexander Nareyek (GMD First Berlin):</i>	
Local Search Heuristics for Generative Planning	56
<i>Alexander Osherenko (FH Hamburg):</i>	
Plan Representation and Plan Execution in Multi-agent Systems for Robot Control	71
<i>Miguel Salido, Adriana Giret, Federico Barber (Universidad Valencia):</i>	
Realizing a Global Hyperpolyhedron Constraint via LP Techniques	78
<i>Austin Tate (AIAI, Edinburgh):</i>	
I-X and <I-N-CA>: an architecture and related ontology for mixed-initiative synthesis tasks	89
